Meshify C

Precision Cut Performance

Meshify strikes an aggressive pose in the Fractal Design lineup with unparalleled cooling performance and a defiant new look.

Like black diamond facets, the angular asymmetry of the Meshify C carves a space uniquely its own as a new force in high-airflow design.

A compact yet spacious open ATX layout creates an unrestricted airflow path from front intakes directly through key components to exhaust, ensuring heat is never an issue.

When performance is top priority and compromise is not an option, Meshify has you covered in style.

Key features

- Streamlined high-airflow design
- The performance and capacity of a larger tower in a remarkably compact mid-tower size
- Newly designed angular mesh front panel maximizes air intake
- Distinctive new styling with stealthy black-on-black aesthetic
- Flexible storage options with room for up to 5 drives
- Sturdy steel drive trays with vibration-dampening rubber grommets cushion hard drives for smooth, quiet and reliable operation
- Two preinstalled Fractal Design Dynamic X2 GP-12 120 mm fans deliver optimum airflow with minimal noise
- Open interior layout creates an unobstructed airflow path from front intake to rear exhaust
- Easy-to-clean filters on the front, top and base with full PSU coverage and convenient front access
- Full length power supply shroud conceals drive cage and excess cabling for unrestricted airflow and a clean looking interior
- Up to 35 mm of space behind motherboard plate with grommetted pass-throughs for clean cable routing
