

CORE 1000 USB 3.0

The Fractal Design Core Series offers a unique combination of design, cooling performance and value.

The Core 1000 USB 3.0 brings forth many features usually only seen in more expensive and larger cases. It supports long graphics cards up to 350mm in length as a result of the innovative, vertical HDD mounting bracket. The front panel is easily removable and pre-fitted with fan filters to ensure a dust free interior.

The sleek black interior is contrasted with white expansion slots while all HDD mountings are fitted with anti-vibration silicone grommets for optimal silence.
