OVERVIEW

North Momentum Edition

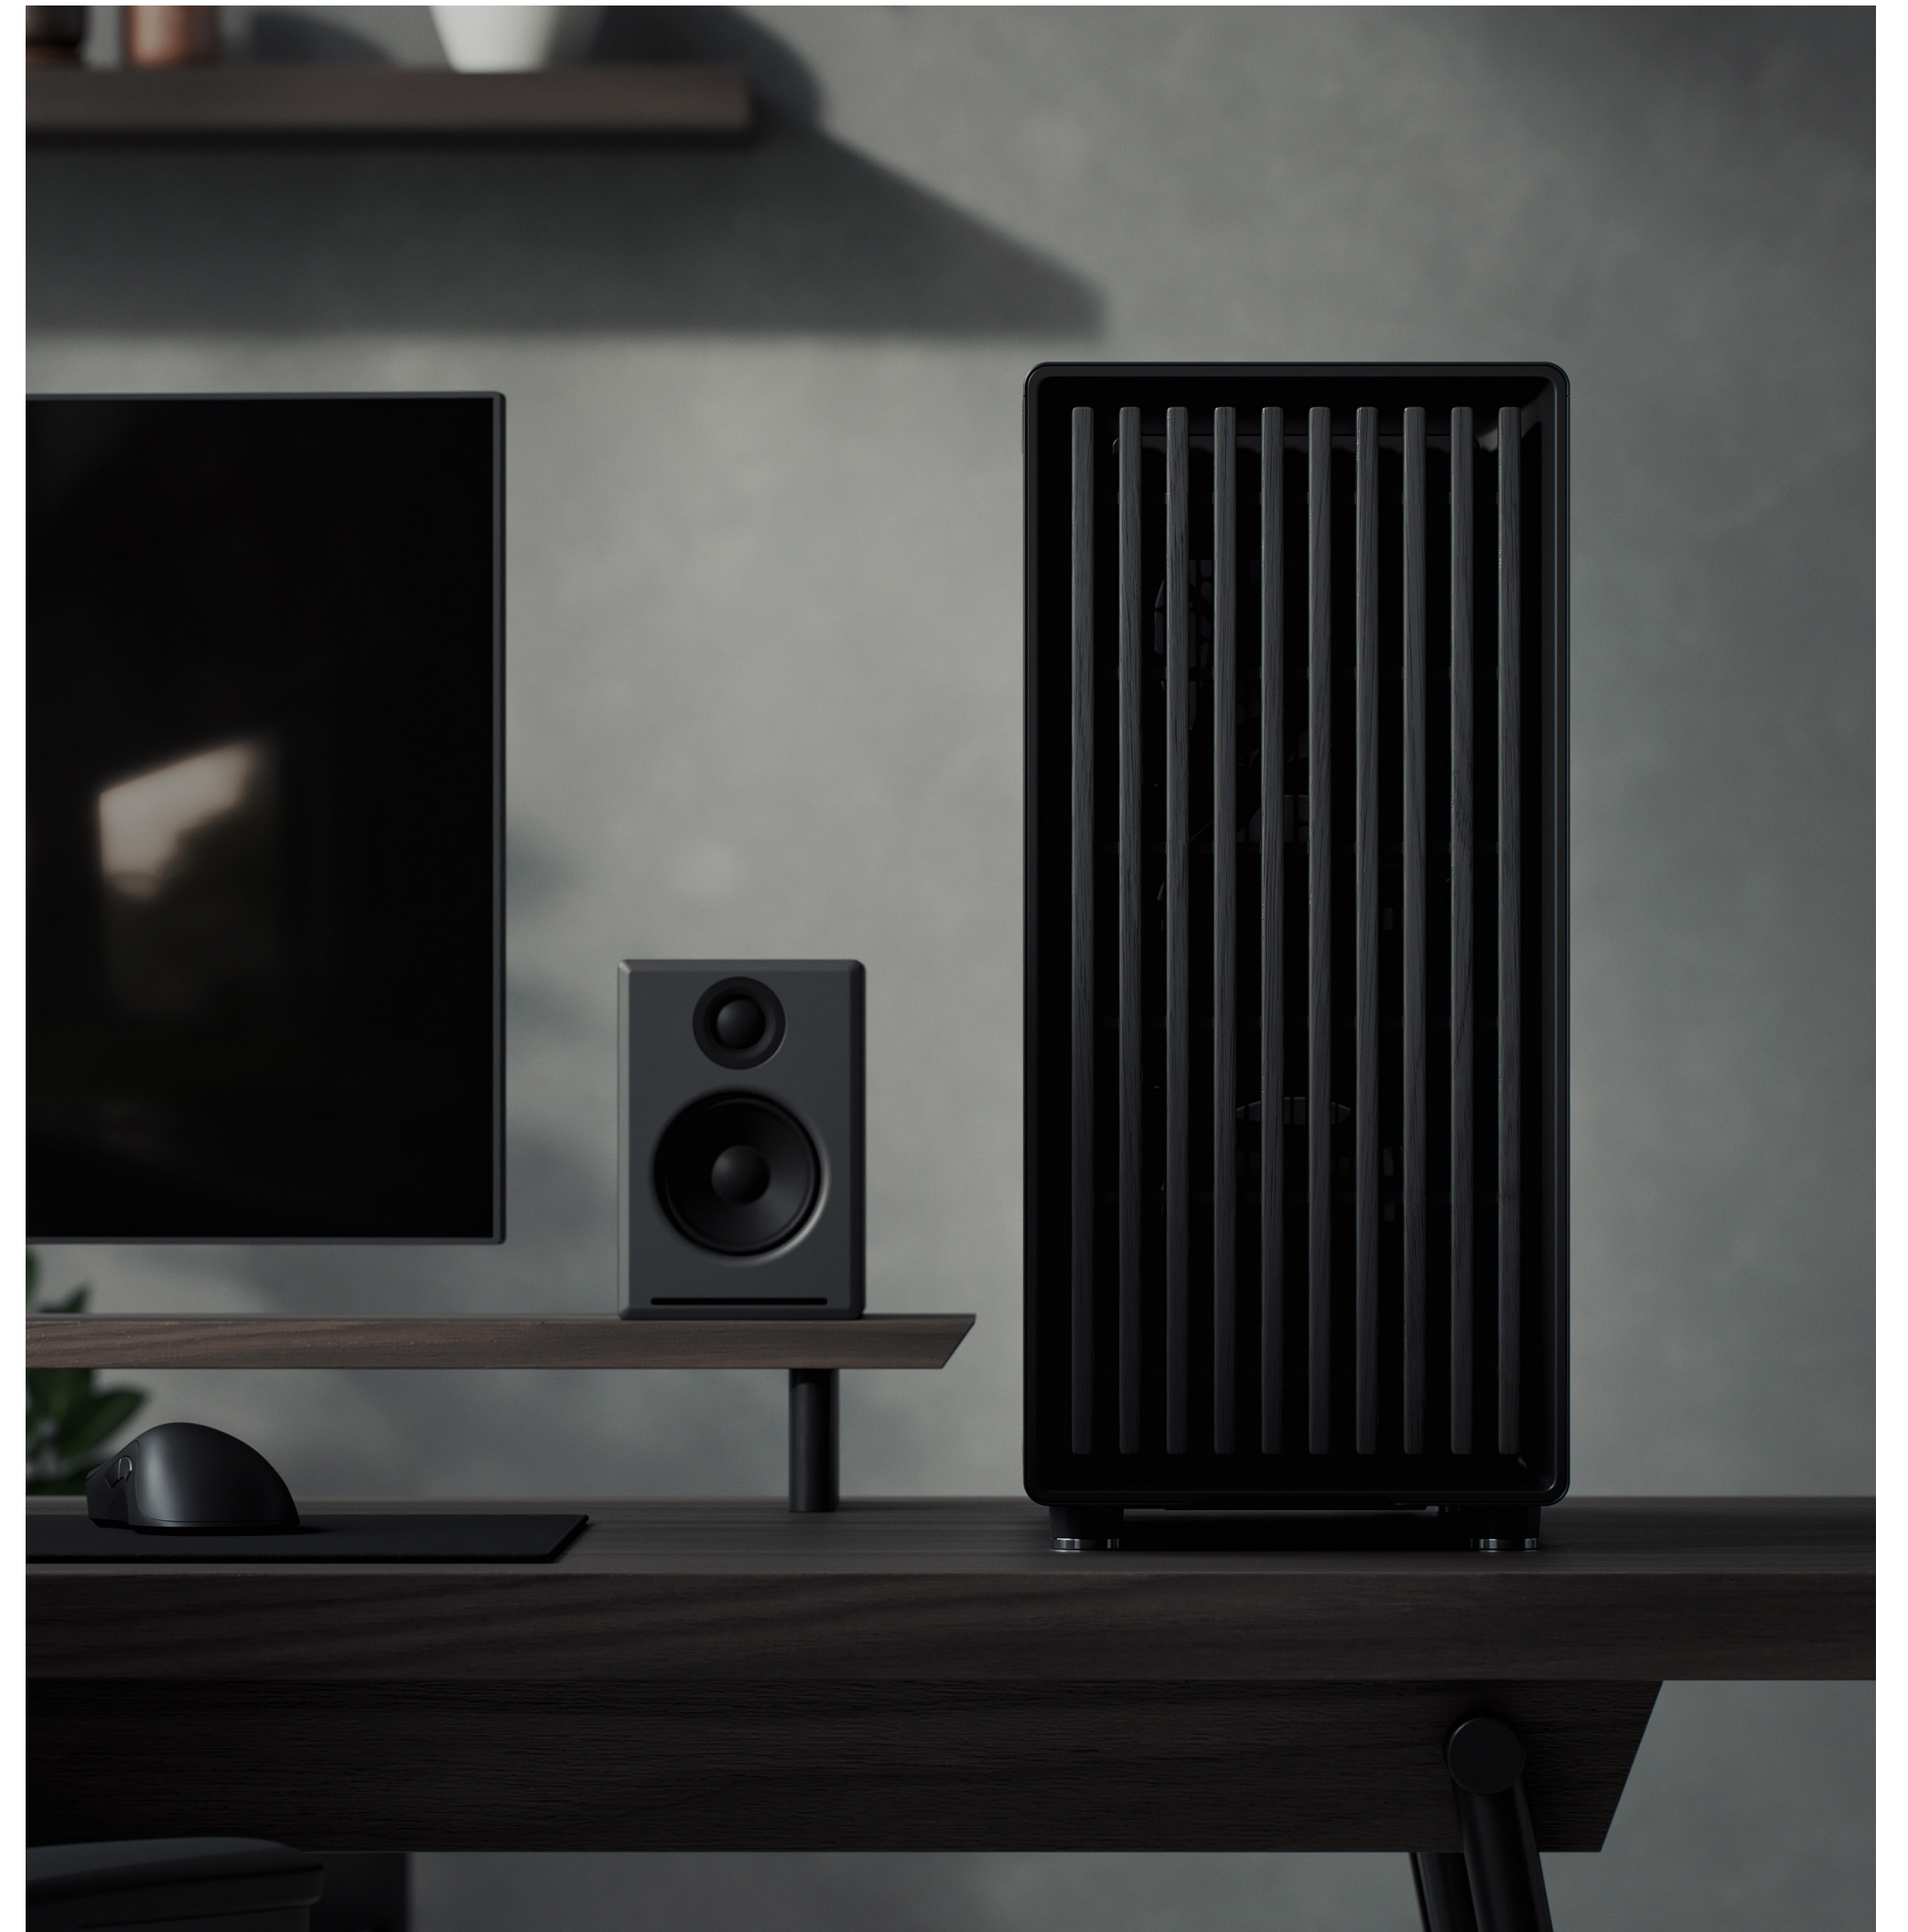

Powerful design

North Momentum Edition introduces a performance-driven expression of North's transformative design, delivering enhanced cooling straight out of the box. Retaining the iconic open front and mesh top, it comes equipped with three high-performance Momentum 12 fans featuring LCP blades for quiet, efficient airflow. A blackened oak front panel, paired with dark alloy accents, creates a refined, fully black aesthetic that integrates naturally into the gaming station. Inside, the streamlined interior supports GPUs up to 355 mm, or up to 300 mm when paired with a 360 mm front radiator, making it an ideal foundation for high-performance gaming systems.
